

**ADDENDUM #2
FEBRUARY 2, 2012**

NAME OF PROJECT: R12-004SP ENTERPRISE LAND INFORMATION SYSTEM

RFP SUBMITTAL DATE: BY 3 P.M., FEBRUARY 10, 2012.

This document shall become as fully a part of the above named Request for Proposal solicitation as if included in the original solicitation and shall take full and complete precedence over anything stated or shown to the contrary in it.

Acknowledgment: Each respondent shall indicate acknowledgment of receipt of this Addendum per the instructions below.

Each and every respondent shall be responsible for reading each and every item in this Addendum to ascertain the extent and manner it affects the work in which he or she is interested.

*****CHANGES TO THE PUBLICATION NOTICE*****

Please consider the following changes, additions, clarifications, and information when preparing your response to the above-referenced RFP:

1. What systems will require data conversion and how many files will need to be converted?

Response: The following systems will require data conversion. The number of files in each has not been determined.

**PlanTrac
LandTrac
Development Application Map Information
Plan Review Status on the Web
Financial Assurances
City Engineering Inspections
Receipts (used at Fire and DRE counters)
Project A – Online Permits (multiple instances)
Permit Administration Database
Concrete Inspection Requests
Customer Service Database
Subdivision Inspection Database
Land Use Information System
Land Development Review System
Fee Calculator
Fee Estimator
Pre-App Map Information**

**Revocable Permit Database
Real Estate Services Project Tracking
Revocable Licensing
Subdivision Viewer**

2. Does the City want an interface with EMC?

Response: Yes, the City would like to interface with EMC. However, it has not been determined whether the chosen vendor will do the interface or if the City will do it internally.

3. Does the City want an interface with their Financial System? If so, what finance system is the City using?

Response: The City utilizes PeopleSoft as their financial system. However, it has not been determined whether the chosen vendor will do the interface or if the City will do it internally. A list of our current environment is listed under section 15.0, Information Technology, which states "Our current environment includes: PeopleSoft, EMC Documentum, ESRI ArcGIS, Microsoft Exchange, VMWare, SQL Server, and Windows Server. Your product must integrate with these foundational environments."

4. Any other interfaces required?

Response: We would like pricing per hour for your professional services to write interfaces.

Any questions pertaining to this Addendum 2 should be directed to Sue Podczervinski at (719) 385-5287. Receipt of this addendum should be acknowledged at the time RFP responses are received. The respondent shall acknowledge receipt of this addendum by signing below, and this addendum shall be returned as part of the RFP response.
